Please submit your managed care residency program application by January 9, 2017

2. Complete the residency application and provide:
   - Curriculum vitae
   - Three letters of recommendation—minimum of two from health professionals related to pharmacy curriculum or practice
   - Personal statement describing why you’re pursuing this residency, your learning objectives and future goals (500-word maximum)
   - Official transcripts from each college attended
3. Submit your application packet by following the instructions on the application.

Selection process
Applicants under consideration will complete a phone interview. Top candidates selected from the phone interview will be invited to campus for an on-site interview and will be required to give a 30-minute Microsoft PowerPoint presentation on a relevant pharmacy topic.

What you’ll learn

During a residency with Prime, you will have the opportunity to:

- Evaluate and balance clinical, financial and government considerations to produce a patient-focused and therapeutically complete drug list (formulary)
- Determine the need for and develop utilization management programs designed to reduce drug misuse and improve member health
- Assess the need for, and develop and provide a medication therapy management program
- Demonstrate working knowledge of Medicare and Medicaid programs
- Communicate and apply knowledge about benefit-design elements to consult with Prime clients about pharmacy benefit strategies
- Understand specialty pharmacy processes, formation of pharmacy networks and business operations
- Learn about the process of developing a holistic specialty strategy (including management opportunities across the pharmacy benefit, medical benefit and distribution channels)
- Serve as a liaison between the health plan and Prime
- Present your research at national meetings and assist with development of peer-reviewed publications
