From: Prime Therapeutics LLC

Subject: January 2019 Notification of Medicare Part D Negative Formulary Change(s)

Prime Therapeutics LLC (Prime) manages pharmacy benefits for health plans, employers, and government programs including Medicare and Medicaid. Prime supports several Medicare Part D Plan Sponsors (Part D Sponsors) and serves over 1 million Medicare beneficiaries. During the year, the Centers for Medicare & Medicaid Services (CMS) may approve changes including the removal of drugs or the addition of restrictions or limits to certain drugs, to the list of Medicare Part D covered drugs. When CMS approves a change, Prime provides at least 30 days notice to both the Part D Sponsors' impacted members and other individuals and organizations that may work with these members, before the negative formulary change(s) take effect. When the change is because the Food and Drug Administration deems a Part D drug to be unsafe, the manufacturer removes the drug from market, or a brand drug is replaced with its generic or is tier raised, Prime will provide retrospective notice as soon as possible. In accordance with Medicare Part D requirements and CMS' approval, Prime is providing notification of the following Medicare Part D negative formulary change(s):
