

Dear Medical Supply Manufacturer:

Thank you for your participation in the Medical Supplies Program (“MSP”) administered by Prime Therapeutics, on behalf of our state Medicaid clients. This solicitation begins the second year for Participating Manufacturers. As a result, submitted contracts for new products or enhanced offers will begin on October 1, 2026, and will run through September 30, 2027.

Existing MSP contracts will continue to run from October 1, 2025, until September 30, 2027. Participants have the option of submitting enhanced supplemental rebate offers on NDCs already contracted. Manufacturers are not required to submit contracted NDCs continuing with current pricing.

Important Note!

- Net Cost per Unit cannot be increased for any NDC included in the previous year.
- Contracted NDCs do not need to be submitted unless they are going to be enhanced.
- Offers submitted for products that are outside the scope of therapeutic classes below will be rejected.

Manufacturers are invited to participate in the MSP administered by Prime Therapeutics. This program brings tremendous value to the participating States that manage medical supplies through the pharmacy benefit.

Bidders are reminded that all pricing submitted will be considered “**BEST and FINAL**”. Final pricing (submitted through the FTP site) is due to Prime Therapeutics by close of business on:

Friday, May 15, 2026

The program currently reviews offers submitted for Medical Supplies in the following therapeutic classes:

- Diabetes Meters
- Diabetes Test Strips
- Diabetes Meters, Continuous
- Transmitters and Sensors
- Controls Solutions
- Insulin Pumps
- Ketone Test Strips
- Lancets and Devices
- Pen Needles
- Reusable Insulin Pens
- Syringes

The MSP currently includes 12 Medicaid states listed on our [website](#), and we are pleased with

its continued success. It is the intent of this program that pricing secured during this bidding process (instructions below) will be available to all States who participate in this Program.

All supplemental rebate offers must be submitted via the Prime Therapeutics Secure FTP site at (<https://secureftp.providersynergies.com/>) using the attached Offer Forms which are also available for download at:

- After pricing is submitted through the FTP site, Medical Supply Exhibit forms 2-1 and/or 2-2 will be generated by Prime Therapeutics and sent to manufacturers for execution. At that time you will be instructed to have the Exhibits signed and returned to Prime Therapeutics if you wish to participate in the Medical Supply Rebate program.
- Offer(s) submitted are firm offers that Manufacturer will not retract unless rejected as insufficient by Prime Therapeutics.
- The Manufacturer will enter into a binding contract(s) incorporating the Manufacturer's offer(s) that are accepted.
- The Manufacturer understands and agrees that the acceptance of its offer(s) does not require any individual state client to include the Manufacturer's offered product(s) on its preferred drug list.

Only those offers submitted to Prime Therapeutics through our Secure FTP site and using these Offer Forms will be presented for review and consideration.

- Do not change the column heading names, add or delete columns or rows, or modify any formats on the Offer Form. Doing so may render your Offer Form information unrecognizable by our systems.
- Products offers must be submitted at the NDC level.
- Offer language in the CGM & RELATED ONLY form is limited to 220 characters.
- Prior to submitting, please re-name the Offer Form file as:
MED SUPPLY [your company name] Offer Form ALL PRODUCTS EXCLUDING METERS.xls, MED SUPPLY [your company name] Offer Form CGM & RELATED ONLY.xls
or MED SUPPLY [your company name] Offer Form BLOOD GLUCOSE METERS ONLY.xls
Using any other naming convention or saving the file as a type other than .xls may render your Offer Form information unrecognizable by our systems. Please limit your company's name to 15 characters, abbreviating or truncating if necessary.

As a reminder, this is year 2 of the 2-year cycle. Offers received this year will have a contract term of October 1, 2026, through September 30, 2027. States review Medical Supply decisions on an annual basis.

- Please direct questions regarding how to complete the offer form(s) to David Carr (david.carr@primetherapeutics.com).
- Please direct questions regarding the Secure FTP site to Nicole Robinson (nicole.robinson@primetherapeutics.com). Usernames and passwords will not be provided over the telephone.

Please direct all other questions concerning the MSP to Prime PDL Leadership via email (PrimePDLEadership@primetherapeutics.com).

Thank you for your attention and participation.
