Prescription Drug Guide

Accord™ Formulary

Introduction

The Prescription Drug Guide contains covered drugs for a broad range of diseases. It is organized into broad categories by Therapeutic Class. Generally, generic drugs are shown in lower-case *italic* type, and brand drugs are shown in capital letters. Consider asking your provider to prescribe generic (p or np) and preferred (P) products, if appropriate.

Specialty Drugs

Specialty medications are often used to treat rare or complex chronic conditions, possibly require high-touch patient care, might need administration by a healthcare professional, can have special handling requirements, and/or could have limited access via select specialty pharmacies.

Coverage Considerations

Most prescription drug benefit plans provide coverage for up to a 30-day supply of medication, with some exceptions. Your plan may also provide coverage for up to a 90-day supply of maintenance medications. Maintenance medications are those drugs you may take on an ongoing basis for conditions such as high blood pressure, diabetes, or high cholesterol. Some plans may exclude coverage for certain agents or drug categories, like those used for erectile dysfunction, weight loss or infertility.

Coverage Review

If your provider determines that you need a drug that is not covered by the formulary or has prerequisites for coverage, you or your prescriber may initiate the coverage review process using the online tool at web.PrimeTherapeutics.com or by calling the Customer Service number on the back of your card any time, 24 hours a day, 7 days a week.

Notice

The purpose of the drug list is to provide a guide to coverage. Decisions about the need for a prescription drug and dosage of a prescription drug must be made solely by you and your physician in accordance with the patient/physician relationship.

*The drug list, also known as a formulary, is regularly updated. This list is subject to change.
Please refer to web.PrimeTherapeutics.com for the current version.*

TIER	DESCRIPTION	
 p	Preferred Generics	
 np	Generics	
 P	Preferred Brands	
 NP	Non-Preferred Brands	
TYPE	DESCRIPTION	
 QL	Quantity Limit	There is a limit to the maximum amount of this drug that can be dispensed over a period of time.
 ST	Step Therapy	You may be required to first try certain drugs to treat your medical condition before you move to this drug option.
 C	Custom	This drug has unique restrictions as indicated.
 S	Specialty Drug	Specialty medications are often used to treat rare or complex chronic conditions, possibly require high-touch patient care, might need administration by a healthcare professional, can have special handling requirements, and/or could have limited access.
 HSA	HSA Preventive Drug	This drug may be covered at zero or low cost before the deductible is satisfied depending on your specific plan. Not all strengths and dosages will be covered.
 ACA	ACA Preventive Drug	The Affordable Care Act (ACA) requires certain preventive generic products to be covered at zero dollar copay. This does not include plans that are grandfathered.
 PA	PA Applies	Your provider will need to submit a prior authorization request which must be approved before you can receive coverage for this drug.
 QPD	Quantity Per Day	There is a limit to the amount of this drug that is covered per day.
