

Select Savings – Hybrid

Helping you optimize your specialty program

At Prime Therapeutics (Prime), we deliver innovative pharmacy solutions that provide exceptional experiences for our customers and members. Our Select Savings – Hybrid solution offers a single, powerful option to help you manage your specialty program. Informed by our Save, Simplify, Support™ approach, the program helps you provide comprehensive specialty drug solutions for your members.

How the program adds value

Select Savings – Hybrid helps lower the cost of coupon-eligible drugs by combining the value of our coupon assistance program with vendor-supplied alternative funding programs. By adding manufacturer programs with Prime's copay assistance solution, Select Savings – Hybrid helps you manage your specialty program.

*Where consistent with the benefit plan and applicable law

†No overlap between the two drug lists; these drug lists are subject to change at any time.

‡Select Savings – Hybrid (Paydhealth): 52; Select Savings – Hybrid (Payer Matrix): 77.

additional specialty medications²

Features that matter to you

- ✓ **No drug list overlap:** Prime's coupon program will help your members access manufacturer coupons for additional specialty drugs covered by the benefit.
- ✓ **Optimized specialty value:** Manufacturer copay assistance is removed from member accumulator balances.*
- ✓ **Additional savings:** Your members can save more at the pharmacy for covered medications by using manufacturer coupons.
