

FILTERING OUT FRAUD, WASTE AND ABUSE

Prime's clinical and fraud, waste and abuse (FWA) products work together to create a highly effective, two-tiered approach to identifying and eliminating FWA in all its forms. It also provides insights that help us recommend to our clients any necessary changes in their clinical or medical processes.

CLINICAL PRODUCTS (FWA)

Like most PBMs, Prime has clinical products that act as a first line of defense to filter out, identify and remove most forms of FWA.

WHAT'S THE PRIME DIFFERENCE?

- Integrated pharmacy and medical data analytics
- Direct collaboration with clients on each case
- A focus on results, not just the number of cases
- Collaboration with clients' SIUs to help plan next steps
- Regular talks with clients on FWA schemes and patterns

PRIME'S FRAUD, WASTE AND ABUSE PRODUCTS

This is a group of FWA products unique to Prime. These are extremely effective at pulling out any remaining suspicious pharmacy and medical claims.
