## MEDICAL PLAN

Prime offers two medical plan options allowing you to decide how you pay for your health care.

- **Consumer Driven Health Plan**—lower per paycheck premiums, but higher out-of-pocket expenses. This plan offers the use of a tax-exempt Health Savings Account (HSA) to help you save money for medical expenses. Prime contributes money into your HSA: \$500 for employee only coverage or \$1,000 if you are covering dependents. Contribution is prorated for new hires. You may contribute into an HSA up to the annual contribution limit.
- **Traditional PPO Plan**—higher per paycheck premiums, but lower out-of-pocket expenses. You may elect to contribute into a medical Flexible Savings Account to be reimbursed for medical expenses through the plan year.

Both plan options use the same coverage network and cover the same services. The difference in the two plans is how you and Prime pay for your care. Premiums for both these options are included in the table below.
